TSAVO EAST DAY TRIP – THE UNTAMED WILDS OF KENYA.

Tsavo East National Park – Known as the “Theatre of the Wild,” Tsavo East is one of Kenya’s largest and oldest national parks, famed for its vast open plains, the red-dusted “red elephants,” and dramatic landscapes. The park is home to the Yatta Plateau, the world’s longest lava flow, the scenic Aruba Dam, and the life-giving Galana River. Wildlife sightings include lions, cheetahs, buffalo, giraffes, and over 500 bird species, making it a paradise for nature lovers and photographers alike.

Day Tour Itinerary.

Depart early morning from Mombasa in a private 4x4 Land Cruiser or van, heading toward the legendary Tsavo East National Park. As you enter the park, vast savannahs stretch before you, home to herds of elephants, graceful giraffes, zebras, and big cats.

Your safari driver-guide will lead you on an immersive game drive through famed regions like Aruba Dam and Mudanda Rock, offering thrilling wildlife sightings and photography moments. Midday, enjoy a buffet lunch at a safari lodge nestled in the wild—a chance to unwind and discuss sightings with colleagues over a scenic meal.

After lunch, enjoy one last game drive before heading back to Mombasa, returning by evening with memories of an unforgettable corporate wilderness escape.

Package Highlights:

- Private 4x4 vehicle
- Entry fees
- Safari driver-guide
- Buffet lunch
- Breakfast
- Return transport
